Sea Sport Boats Inc. Purchase Assets of Fluid Marine

Sea Sport Inc. is proud to announce the purchase of assets from Fluid Marine of Auburn, Washington formerly the builder of C-Dory, Skagit Orca and Tom Cat boats.

Sea Sport, recognized as the leader in pilothouse boat building has been manufacturing boats for recreational use, charter use and governmental agencies since 1955. In 2006 Sea Sport purchased the assets of Osprey Boats Inc. and began building the Osprey line out of their Bellingham facility as well. The company intends to be operational with the C-Dory, Skagit Orca and Tom Cat boats within the month.

The addition of these new brands to the Sea Sport and Osprey boat lines was a natural fit for the Bellingham boat builder. All of the brands are nationally recognized pilothouse style boats that have earned renowned recognition in their class. The expansion will solidify the Bellingham Boat builder as the premier builder for pilothouse style boats in the nation.
